

Questions & Answers

Materials Testing & Inspection November 26, 2013

1) The RFP lists Environmental Testing Services as a part of the scope. Would you mind elaborating a little bit more about that? What environmental testing/services, if any, has the city encountered in relation to the CMT services in the past?

The City of Redmond's CIP division has needed soil sampling and testing, groundwater monitoring, sampling and testing for pollutants and contaminates. It is anticipated that these services may be required again. The City may ask the selected consultants to perform other environmental testing and inspection services depending upon project needs.

2) The RFP is specific that the submittal is to not exceed 16, double-sided pages excluding the example reports. Does the 16-page limit include the cover and cover letter?

Cover and cover letters are not included in the page count.

3) The RFP states that the due date is Friday, November 27th. November 27th is a Wednesday. Please clarify due date.

RFPs are due on Wednesday, November 27th.

4) Please confirm your address.

Mailing address is:

MS:1NPW 15670 NE 85th St. Redmond, WA 98073
