

# Refresh Your Recycling Pledge

Brought to you by the City of Redmond's Recycling and Waste Reduction Program

We, \_\_\_\_\_ will join a growing number of Redmond businesses by pledging to:

- Review how we currently collect recycling in our buildings (Are there enough recycling baskets in the right places?)
- Make sure employees know what goes where (signage or reminders?)
- Help make sure recycling is ending up in the right dumpster (janitorial staff trained?)
- Purchase recycled-content products when possible (paper or other products?)

**Bonus:** Our company will set up a process to collect and recycle at least one of the more challenging materials (which aren't accepted in the single stream recycling bin)

- Styrofoam packaging or peanuts
- Ink Cartridges
- Batteries
- Cell Phones
- Electronics
- Food waste (it's free for food service businesses!)

**More info:**
