10 4:50	Welcome Natural Resources and Transportation Staff - Jeanne Justice, Natural Resources - Lei Wu, Transportation Planning and Engineering - Bruce Newman, Traffic Operations Jeanne Justice introduced herself and described the natural environmental context in Southeast Redmond, including streams, Lake Sammamish, groundwater, and stormwater. Bruce Newman introduced himself and described the role of the Traffic Operations group at the City, which includes signal timing, roadway striping, and other responsibilities.	CAC Co-Chair
75 5:00	Alternatives Development - Staff explanation (10 min.) - Round 1 (20 min.) - Break/transition (5 min.) - Round 2 (20 min.) - Debrief (20 min.) Jeff Churchill explained the small group exercise. Two rounds of discussion on proposed alternatives for the neighborhood plan followed. During the debrief CAC members mentioned the following themes or big ideas: • Grade separating traffic at East Lake Sammamish Parkway and Redmond Way • Creating a transition of land use intensities between the north end of Woodbridge and Union Hill Road	CAC Co-Chair

	 Creating a mountain bike park as a buffer between more intense and less intense uses Using business park offices as a buffer Bringing diversity to the neighborhood through housing. The CAC identified the following areas of alignment: Traffic improvements noted on the map People who work in Southeast Redmond do not necessarily live in Southeast Redmond, and transit/pedestrian/bicycle access is challenging, leading to the need for more parking The CAC identified the following areas where there is divergence of opinion, or where more clarity is needed: Transition idea needs more refinement, definition What are the growth expectations/targets for Southeast Redmond? How should we or can we handle uses like transfer stations or jails? 	
10 6:15	Preparation for June CAC Meeting - Alternatives discussion and analysis	Kimberly Dietz
